

A photograph of an outdoor workspace called the SolarZone. The area is covered by a large, dark metal frame with solar panels mounted on the roof. Three people are seated at a long, perforated metal table. On the table are two laptops, a blue water bottle, and some papers. The background shows a clear blue sky, some trees, and a building in the distance.

LUMOS

Welcome
to the
SolarZone

What is the **SolarZone**?

The **SolarZone** is a stand alone solar shade and charging structure.

The **SolarZone** is the outdoor furniture answer to maintaining safe social distance while providing a comfortable, functional and great looking seating area.

The **SolarZone** is the perfect solution for outdoor classrooms, outdoor workspaces, cafes, restaurants, food trucks, stadiums, resorts, or anywhere a shaded seating area and charging would be appreciated.

Each **SolarZone** includes (4) wireless chargers and (4) outlets for mobile device and laptop charging. With our LSX Modules, you have unlimited charging ability when the sun is shining. When the sun goes down, the **SolarZone** has enough battery storage for 8 hours of laptop charging, 4 hours of wireless mobile device charging and can keep the lights on for over 8 hours.

The integrated LED lighting makes the **SolarZone** a great place to hang out into the evening. The lights can be programmed to turn on and off automatically based on whatever schedule you like.

The **SolarZone** makes using solar energy accessible in a functional and aesthetic package that will be appreciated by everyone.

The **SolarZone** and all of our proprietary products are built from the highest quality components and state-of-the-art US manufacturing to create the most beautiful, durable and functional solar products available.

Where to use the SolarZone?

Everyone can maintain safe social distance while sitting at the **SolarZone**.

Combine multiple **SolarZones** to create larger shaded seating areas

How about a seating area for a cafe, brewery or food trucks?

Outdoor classroom?

Outdoor workspace?

Pool side seating?

Stadium snack bar?

The possibilities are endless...
